

# CLEANING *Solutions*

## Stainless Steel Polish

- Cream formula cleans, polishes and protects stainless steel and other metals
- Creates a protective shield to resist future fingerprints, water spots, dust and dirt
- Does not leave behind an oily residue

CARE FOR WORK ENVIRONMENTS®

# Stainless Steel Polish

## CLEANS, POLISHES AND PROTECTS

Stainless Steel Polish is a specialty cream that cleans and polishes all types of stainless steel, as well as chrome and other metal surfaces.

## A PROTECTIVE SHIELD

Leaves a tough protective shield which resists fingerprints, water spots, dust and dirt.

## NON-SCRATCHING

Has no harsh abrasives to scratch surfaces.

## NO OILY RESIDUE

Unlike ordinary stainless steel cleaners and polishes, there is no mineral oil residue left on the surface to attract dirt and dust.

## COST SAVING

Aerosol stainless steel products are expensive to use. And, stainless wipes are about 35 cents per wipe. State Stainless Steel Polish does a great job ... at half the cost!

## A LITTLE GOES A LONG WAY

Stainless Steel Polish comes in economical quart ready-to-use bottles. A small dab of the product polishes a large area — a single bottle cleans as much as three aerosols.

## DIRECTIONS FOR USE

- Shake gently.
- Using flip top: Squeeze a small amount on a clean cloth; apply to the surface.
- With sprayer: Hold about 10 inches from the surface; spray a light mist over the surface.
- Wipe immediately with a clean, soft cloth. Buff using a clean section of the cloth.
- Do not allow the spray to dry before wiping.
- Note: If surface is extremely dirty, pre-clean using a State® Cleaner

## TECHNICAL DATA:

**APPEARANCE:** Milky; light green liquid

**PHYSICAL STATE:** Slightly viscous fluid

**BOILING POINT:** 212°F

**SPECIFIC GRAVITY:** 0.970

**VOC CONTENT:** <5%

**ODOR:** Pleasant

**pH:** 6.5

**PRODUCT WEIGHT:** 8.08 lbs/gal.
